

Recommendations for 24-7 Safe Spaces in Winnipeg

City Council should consider funding (through a multi-year grant) an existing agency whose mandate it is to work with one or more priority populations:

- Women
- People who use drugs
- Youth
- 2SLGBTQ+
- Sexually exploited girls and women

The grant application could be based off these best practices and require applicants to specifically outline how they satisfy the following:

- ✓ Indigenous organization or Indigenous-led services;
- ✓ Trauma-informed approach;
- ✓ Staff with lived/living experience;
- ✓ Harm reduction approach;
- ✓ Access to on-site skilled medical/mental health staff.
